

COUNTY INSTITUTE.

The Teachers in Annual Session at Elm Grove This Week.

PROF. SHOUCK AND CRAIG ON HAND

As Instructors, And the Attendance Good—Enjoyable and Profitable Exercises of the Opening Day's Session—The Subjects of Reading, Spelling and Arithmetic Mainly Dwelt on Monday.

The annual meeting of the Ohio county Teachers' Institute is now in session at Elm Grove, with Hon. Henry Houck, deputy state superintendent of Pennsylvania, and Prof. F. H. Craig, of Wheeling, as instructors, was called to order by County Superintendent Frank Cox, at 10:15 a. m. yesterday. "Work, for the Night is Coming," was sung by all, Miss Minnie Vogler at the organ. All joined then in repeating the Lord's Prayer in concert.

Mr. George Lewis and Miss Lillie Maxwell were appointed secretaries. Enrollment followed, after which Prof. Craig gave a short opening talk, making the following points:

1. Objects of the Institute—
- (a) To prepare for better work.
- (b) To consult as to better methods.
- (c) To get a higher idea of the work.
- (d) To become better acquainted.
2. How to make the Institute a success—

(a) The instructors must have the sympathy and co-operation of the teachers.

(b) Must be prompt in the performance of duties assigned.

(c) Must be punctual in attendance.

(d) Teachers must be willing to bear their part.

Prof. Houck followed in a pleasant talk, giving an account of the first institute he ever attended, and contrasting what was then to what is now. He urged all teachers to be free to take part in all the exercises. He spoke also feelingly of the great work in which they are engaged; also of the teaching of patriotism in the schools—love of country, love of state, love of home.

He continued his remarks by taking up the subject of primary arithmetic and spelling. He took the position that there might be an excuse for not becoming good arithmeticians, but there was none for not becoming good spellers.

AFTERNOON.

The afternoon was opened by singing "Old Coronation" with a vim.

The subject of "School Journals" was discussed by Prof. Craig, who urged on all the teachers to subscribe for an educational journal. If they could afford but one, let that one be the *West Virginia School Journal*; then take as many more as can be afforded. The teacher, to keep abreast of the times, must take one or more journals. What would be thought of a lawyer who would take no law journals, or of a physician who would not read works on medicine? A few others spoke in the same strain. A lively song was sung by Prof. Houck, assisted by the members of the institute, after which Prof. Craig spoke on "Primary Arithmetic," explaining methods of teaching, without the text books, beginners in arithmetic.

Prof. Houck followed on the same subject, speaking particularly of the difficulties encountered in teaching numeration.

A short recess was enjoyed by all, after which Prof. Houck took up the subject of reading, starting out with the assertion that the most important subject to come before the institute was that of reading.

In many schools reading is the most dreaded exercise in the school room, when it should be the most pleasant one in every way. Reading is not taught as it should be, or the exercise would be enjoyed by all. There is no higher accomplishment than to be a good reader. Teachers should all remember this, and should teach with this in view.

After roll call the institute adjourned to meet Tuesday morning at 9 o'clock. There are forty-nine different schools in the county, and the enrollment on yesterday, the first day, was good.

Everything points to a pleasant week's work. This is Prof. Houck's first visit to Ohio county as instructor. He has already captivated the teachers, started the ball rolling and all will have a grand time. The new county superintendent, Mr. Cox, takes hold of the work in a manner that shows the people made no mistake in their selection. He will doubtless make a good record, and be a worthy successor to Prof. Wiedman, who so long and worthily filled the office.

A PLEASANT TWO WEEKS' TRIP.

W. J. Higgins and W. H. Bone have just returned from a two weeks' trip to the White City and up through the great lakes. They left Wheeling on the 8th, going to Chicago by the Baltimore & Ohio. After seeing the World's Fair, the many parks and interesting places in Chicago, they went aboard the steel steamer Manitou and sailed up through Lake Michigan, Lake Huron and the Soo river to Sault Ste. Marie, a beautiful ride of 400 miles. While at Sault Ste. Marie they saw the new locks now in course of construction. They were taken through the rapids in a canoe piloted by two native Indians, quite an exciting trip. After leaving Sault Ste. Marie they sailed down through Lake Huron and the straits of Mackinac to Mackinac Island, where they rested a few days. They found this quite a lively and interesting summer resort, people being there from all parts of the country. After leaving Mackinac they went to Detroit by way of Lake Huron and Lake St. Clair. After spending a few days in Detroit and Windsor, Canada, they crossed Lake Erie to Cleveland, where they visited several of the beautiful parks, cemeteries and points of interest, and arrived in Wheeling by way of the Cleveland, Lorain & Wheeling.
